LOW GO

CAMERA CARS

The **Low Go Citroën CX GTI** is agile, fast, and extremely low vehicle, with **hydraulic suspension** that provides exceptional stability and smooth movement.

Equipped for **quick mounting of any camera, steadicam or small crane,** including **tube setups,** it offers great versatility. It is ideal for vehicle tracking in city centres, narrow streets, limited spaces, or tracking with lights, expanding creative possibilities.

FEATURES:

- Passengers: **6 in closed traffic**, 4 in open traffic
- Maximum speed: **Normal circulation speed**
- Equipped with interchangeable **front, rear, side and roof platforms**
- We recommend using a generator with a maximum output of 2.5 kW
- Ideal for vehicle tracking, photography, city centres, narrow streets, limited spaces…
